

## Quality Policy

NEOLITE ZKW is committed for Customer Satisfaction and Continual Improvement in quality performance of products, processes, services and technology for design and manufacturing of automotive lighting solutions through:

- Engaging resources and energies towards establishing culture of total quality management.
- Implementation of best industry practices towards business excellence.
- Adapting proactive approach of risk based thinking towards defects prevention.
- Producing products with highest quality standards to meet customer expectations.
- Creating awareness among stakeholders to minimize potential risk and impact on environment, health & safety.
- Training and motivating employees to inculcate the spirit of teamwork to achieve company and individual objectives and attain greater heights.
